

48/5736 CYO Photo Handprint Mother's Day Card Craft Kit

Please have adult supervision if using a glue gun for this craft.

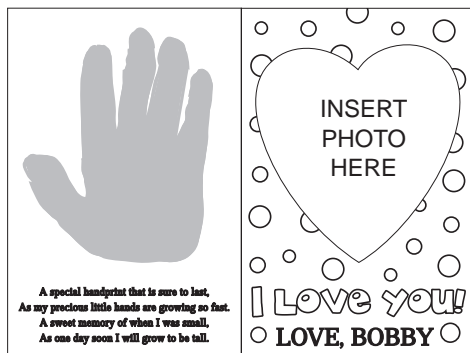

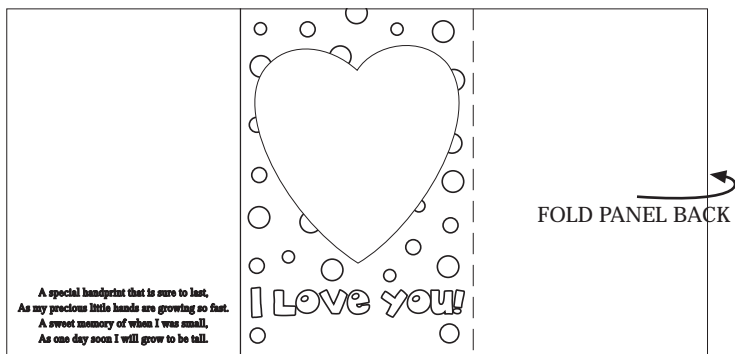

1. Color your card any way you like.
2. Fold the card so that the Happy Mother's Day panel is the front of the card. Fold the blank panel back. Glue the bottom edge and the side edge (Do not glue the top edge!) of the blank panel to the back of the heart frame panel. You should now have a pocket as the back of the card.
3. To avoid spilling paint, lay down of a piece of scrap paper (not included). Coat your hand with paint, then press your hand down onto the inside of the card above the poem as shown. Thoroughly wash your hands, and allow time for the paint to dry before folding card again.
4. Insert your photo into the pocket. Sign your name below the I love you on the heart frame panel.
