

48/6341 Holiday Handprint Craft Kit

Please be sure to have adult supervision for this craft.

1. In disposable mixing container (not included) pour 5 tbsp. of water.
2. Add 1/2 of the bag of plaster to the water and stir with mixing stick for 20 seconds. Add remaining plaster to mix and stir for an additional 30 seconds to remove all lumps.
3. Pour plaster mix into plastic mold until it is 1/8" from the top. Gently shake mold to remove any bubbles. Let plaster set for 4-5 minutes.
4. Place the child's hand into the plaster and hold it in place for one minute and remove. If you do not like the handprint, wait one minute and repeat by placing the child's hand back into the original handprint for one minute to give the original handprint more definition.
5. After handprint is made, make sure to wash child's hand.
6. To make the hole for hanging the ornament, use a pencil (not included) and insert it at the top of the ornament 1/4" in from edge of the mold and remove.
7. Let the mold set for up to one hour or until plaster is hardened. Remove ornament from plastic mold and let it dry overnight. It is recommended to place ornament on cooling rack (not included) so air can circulate around entire ornament as it dries.
8. To finish, insert ribbon through hole and tie a knot for hanging.
